If at the end of 24 hours goods are uncleared, they will be delivered to Customs at the "Queen's Warehouse," but if entered for bond they shall be reloaded into Railway trucks and delivered to the Custom House Department, and a charge of 1s. per ton (minimum 3d.) per consignment will be made for haulage from the "Receiving Warehouses" to "Customs' Bond Stores."

a. No vessels, boats, or flats shall be fastened to any part of such jetty or jetties, except to such ring-bolts or other fastenings as are or may be provided for the purpose; and no vessels, boats, or flats shall lie alongside such jetties, unless so fastened. All vessels, boats, or flats so fastened shall also be anchored or moored in such manner as to relieve such jetties as much as possible from the weight of such craft; and in no case shall more than *one tier* of such vessels, boats or flats lie alongside or be fastened to any such jetty or jetties, or be moored or fastened to other vessels, boats, or flats lying alongside any such jetty or jetties, except by special permission of the Harbour Master.

b. Such vessels, boats or flats shall not be moored or so fastened as aforesaid, except for the purpose of loading or unloading, nor for any longer period during the authorised hours than shall be reasonably required for such purpose.

f. All steamers when lying at a jetty shall have and use two up-and-down fenders made of rope, and outside the up-and-down fenders a fore and aft rope fender of sufficient length and thickness to keep the guard streak entirely clear of the fender piles,

RAILWAYS DEPARTMENT—*continued.*

g. All foreign-going vessels shall be moored alongside the jetties in such position as may be indicated by the Harbour Master, who may, if necessary, direct the removal of other craft for that purpose.

h. Vessels shall unload in the order in which they arrive, and are placed in a list to be kept by the Harbour Master. Application to be placed in order on such lists according to arrival must be made to the Harbour Master on the day preceding that on which the vessel will unload. If such application be not made, the next vessel on the list shall have precedence, but the vessel forfeiting her turn may be placed next in succession. Vessels will load according to the order of application to the Harbour Master, and shall, when required by him, give place to vessels discharging cargo. Vessels arriving from or bound to foreign ports shall have precedence of coasting and other craft.

i. In the event of any vessel or vessels being moored alongside any of the jetties in such way as to exclude any other vessel or vessels whose owners or masters wish also to moor her or them alongside consistently with the Regulations, the Harbour Master may order the removal of such vessel or vessels to another berth or berths, and such vessel or vessels shall forthwith be removed accordingly.

j. When the Harbour Master may deem it unsafe, through stress of weather, for a vessel to remain alongside a jetty, he shall direct the immediate removal of such vessel, and the Master or other person in charge of such vessel shall remove such vessel accordingly.

25. The Pier Master will supply water to shipping at the charge of 1s. per one hundred gallons, and which said charge shall be collected by him.

On a single five-eighth chain not more than 33cwt. shall be lifted, or 66cwt. with one single block added. For heavier weights the number of parts of the chain shall be increased in proportion to the weight to be lifted; but not more than five tons shall be lifted by any crane without special arrangements with the Pier Master.

32. No person or persons shall land or place, or cause to be landed or placed upon the jetties, or upon the approach to the jetties, any decayed or decaying vegetables or other thing whatsoever likely to become a nuisance.

TREASURY DEPARTMENT—*continued.*

(CUSTOMS.)

6. Before commencing to discharge inward cargoes, shipmasters or their agents shall hand to the Officer in charge of the jetty a freight list of the cargo, which shall include mark, number, shipper, consignee, weight, or measurement.

7. No goods shall be placed on the jetty without permission of the Officer in charge.

8. If free goods are not removed from the receiving warehouses within 24 hours from the time they are placed therein, a storage charge of 6d. per ton, or 1d. per package per day, will be made.

9. Cargoes trucked direct into receiving warehouses shall be tallied; and the Officer in charge shall, if requested, give receipts for same.

10. The official hours for trucking will be from 6 a.m. to 5 p.m. between 1st October and the 30th April, with an interval of one hour each for breakfast and dinner; and on Saturdays the hours will be from 6 a.m. to 1 p.m. From 1st May to the 30th September, 8 a.m. to 5 p.m., with an interval of one hour only for dinner; and on Saturdays from 8 a.m. to 1 p.m.

11. No vessels, boats, or flats shall be fastened to any part of the jetty, except to such ring-bolts or other fastenings as are or may be provided for the purpose; and no vessels, boats, or flats shall lie alongside the jetty unless so fastened. All vessels, boats, or flats so fastened shall also be anchored or moored in such manner as to relieve the jetty as much as possible from the weight of such craft; and in no case shall more than *one tier* of such vessels, boats, or flats lie alongside or be fastened to the jetty or be moored or fastened to other vessels or flats lying alongside the jetty, except on special permission of the officer in charge of the jetty.

12. Such vessels, boats, or flats shall not be moored or so fastened as aforesaid, except for the purpose of loading or unloading, nor for any longer period, during the authorised hours, than shall be reasonably required for such purpose.

13. Passenger boats only may lie alongside the steps on the jetty, and for no longer period than may be necessary to embark or disembark passengers.

14. All such vessels, boats, or flats lying alongside the jetty shall, on the approach thereto of a passenger steamer, be hauled off to a sufficient distance to enable her to disembark or embark passengers.

15. No person shall fish on the jetty to the obstruction of the traffic.

16. Stones, bricks, clay, sand, lime, coals, coke, or other fuel (except in bags) shall not be landed or placed on the jetty, except imported bricks or paving stone both which latter must be removed immediately. Firewood, for the use of passenger steamers and other vessels or boats, shall be taken direct from the truck to the vessels. No goods shall be handed over the rails of the jetty.

17. Tramways and trucks provided for the use of the jetty shall, where so provided, be used for the transit of goods, chattels, and merchandise, on, to, and from the jetty. Bullock or horse teams, or any wheeled vehicle drawn by any quadruped or quadrupeds, shall not be driven on or permitted to go on the jetty.

18. Gunpowder shall not be landed or left on the jetty without a keeper, nor without being well covered with a tarpaulin, and shall be removed with all possible despatch.

19. All goods trucked on the jetty must be carefully removed from the trucks, and not shot off them.

20. No stones or other kind of substance whatever shall be thrown into the water from the jetty.

21. No person shall make fast any tackle, purchase, or other gear to any part of the cranes placed at the ends of the jetty, except such gear as is furnished by the Government for the working of the crane.

22. Not more than one ton shall be lifted with single half-inch chain, or two tons with a single block added. On a single five-eighth chain not more than 33 cwt. shall be lifted, or 66 cwt. with one single block added. For heavier weights the number of parts of the chain shall be increased in proportion to the weight to be lifted; but not more than five tons shall be put upon any crane without special arrangements with the officer in charge of the jetty.

23. Any steam vessel plying on the coast of this Colony shall be permitted to lie alongside the jetty, for the purpose of discharging and taking in cargo, at all hours of the day and night consistently with the Regulations.

24. All steamers when lying at the jetty shall have and use two up-and-down fenders made of rope, and outside the up-and-down fenders a fore and aft rope fender of sufficient length and thickness to keep the guard streak entirely clear of the fender piles.

25. No goods are to remain on the jetty for more than 24 hours, or on the platforms for more than 48 hours.

26. In cases where special permission is granted by the Collector or other principal officer of Customs for the landing of goods from beyond the seas on the beach, no wharfage charges will be levied as are chargeable on goods landed at the jetty.

27. When the officer in charge of the jetty may deem it unsafe, through stress of weather, for a vessel to remain alongside a jetty, he shall direct the immediate removal of such vessel.

28. All foreign-going vessels shall be moored alongside the jetty, by the officer in charge of the jetty, in such position as may be indicated by such officer, who will, if necessary, direct the removal of other craft for that purpose.

29. Vessels shall unload in the order in which they arrive, and are placed in a list to be kept by the officer in charge of the jetty. Application, to be placed in turn on such list according to arrival, must be made to the officer in charge on the day preceding that on which the vessel will unload. If such application be not made the next vessel on the list shall have precedence, but the vessel forfeiting her turn may be placed next in succession. Vessels will load according to the order of application to the officer in charge, and shall, when required by him, give place to vessels discharging cargo. Vessels arriving from or bound to foreign ports shall have precedence of coasting and other craft.

30. In the event of any vessel or vessels being moored alongside the Jetty in such way as to exclude any other vessel or vessels whose owners or masters wish also to moor her or them alongside consistently with the Regulations, the Officer in charge of the Jetty has power hereby to order the removal of such vessel or vessels to another berth or berths, and thus afford a berth or berths for such vessel or vessels so wishing to moor alongside such Jetty.

The foregoing General Regulations are published for general information.

* In the Victoria Hospital, at Subiaco, 46 patients were treated for Small Pox, of whom 31 were males and 15 females; of these 7 died, namely 5 males and 2 females, the two latter cases being complicated with miscarriage. Of the 7 who died only 1 had been vaccinated, whilst 7 patients who had not been vaccinated recovered. Two cases of confluent Small Pox also were treated in the Quarantine Hospital at Woodman's Point, near Fremantle, 1 of which proved fatal; whilst 1 case occurred at Albany. The death of the Chinaman who died of Small Pox at Fremantle does not appear ever to have been registered.

GENERAL IMPORTS into the Colony of Western Australia during the Year 1893.

* N.B.—The Tariff Act of 1888 (51 Vict., No. 23) was in force until the 7th September, 1893, upon and after which date the duties were collected under the new Tariff Act (57 Vict., No. 11). The italic letters "*n*" (new) and "*o*" (old) denote the respective tariffs under which the duties were levied. The absence of either letter signifies that the rates for those items were the same under both Acts.
